

Early Works Package 2 commences on the \$740 million Liverpool Health and Academic Precinct (LHAP)

The Liverpool Health and Academic Precinct reaches the second stage of early works with completion of the stage expected in early 2021.

Package 2 of early works is being delivered by contractor, Multiplex. The works package includes:

- construction of a temporary education facility on Eastern Campus
- reconfiguration and connection of P1 and P3 car parks
- temporary relocation of engineering office, distribution centre and telephone switch room
- new kitchen
- new mortuary
- refurbishment works

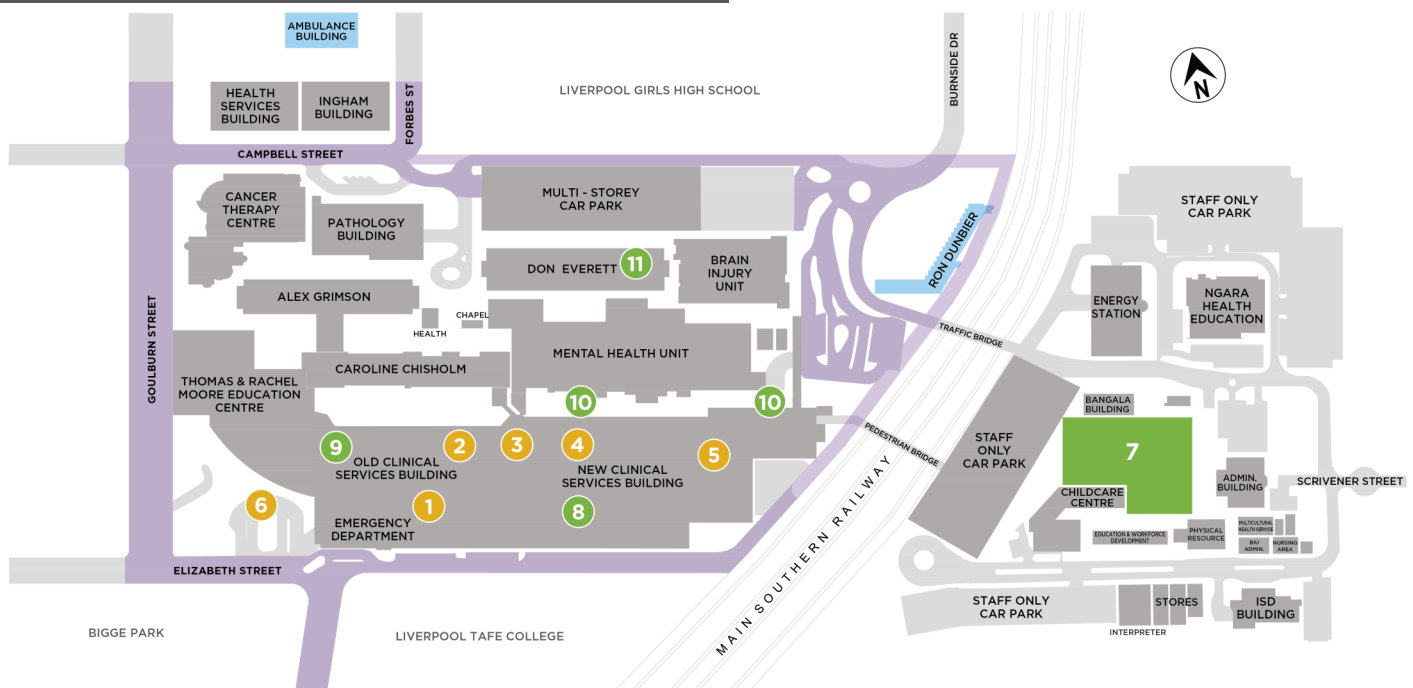

These work zones are detailed in the map below. The impacts to patients, visitors and staff include:

- reduced parking in P1, P2 and P3 car parks (accessible parking spaces will be maintained where possible)
- alternate pedestrian routes
- dust, noise and vibration.

The safety of our patients and visitors is a priority at all times. We encourage everybody to follow signs and traffic control that will be in place to ensure safe travel around the construction sites.

Should you have any questions, please contact the LHAP team on (02) 8738 6670 or email SWSLHD-LHAP@health.nsw.gov.au
