

Girls in STEM

Johnstaff had the pleasure of hosting its third STEM program aimed at inspiring and encouraging Year 9 girls to think about pursuing a career in engineering and construction.

A group of enthusiastic students from Liverpool Girls High School heard many of our highly experienced and engaging leaders discuss their careers in STEM. One of the notable speakers was Sandra Orlando, the NSW General Manager of Lendlease, who shared insights into her 23 years of experience working in construction. The group also enjoyed a site visit, which provided a hands-on and immersive learning experience.

The students will return for a fourth and final time in November to learn more about property and construction.

JERSEY DAY

Our construction and redevelopment teams wore their favourite jerseys on Friday 1 September in support of Organ and Tissue Donation.

Let's raise awareness and spark meaningful conversations about saving lives.

Remember, it only takes a minute to be a hero!

 Redevelopment Team, Liverpool Hospital, Locked Bag 7103 Liverpool BC NSW 1871

Keep your eyes peeled on the construction site along Goulburn Street as work progresses on the exterior façade of the building!

We took the Medical Imaging team on a familiarisation walk through their future department!

Monthly highlights with our community

In recognition of Multicultural Health Week, the project team continues to connect with our cultural community groups across south western Sydney.

Last month, Dr David Abi-Hanna presented in language to the Fairfield Arabic Men's Group about the latest updates on the redevelopment project.

The group asked lots of questions about the new Emergency Department and looked forward to a return visit next year!
