

Scrubs the Pug recently visited one of our Patient Enquiry Officers to welcome visitors into the hospital

A new look for main reception

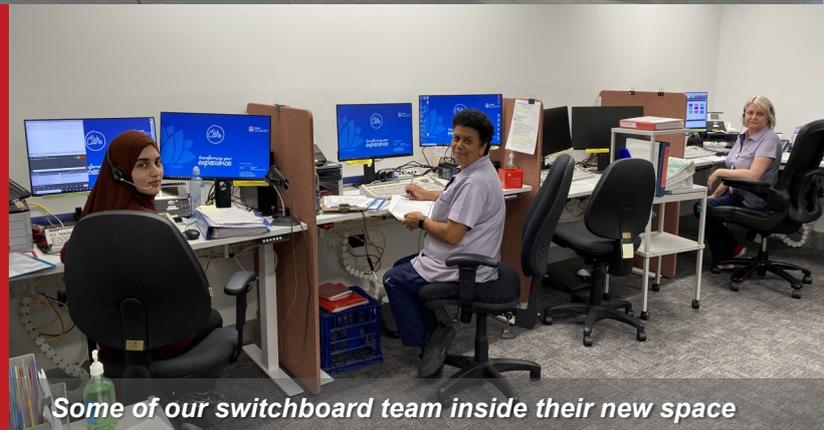

If you've visited the hospital recently you may have noticed a new look and feel to our main reception desk. As part of early works to help prepare the hospital for future demolition and construction works, a new temporary reception desk has been created at Entrance B, directly opposite to the previous desk.

The hospital's switchboard team has also moved, with the new space boasting upgraded technology to ensure timely response to calls and a new paging system supporting efficient communication between medical teams.

A second reception desk has also been created adjacent to Lift D in the main concourse to support increased pedestrian traffic via Entrance J once main works commence on the Liverpool Health and Academic Precinct construction.

Exciting works to come...

Early works on the redevelopment project will continue throughout March, with impressive upgrades of our mortuary and kitchen spaces currently underway – stay tuned for details in future editions.

Below ground, our builders are working on the connection of the P1 and P3 car parks which will provide improved access and traffic flow.

THANK YOU FOR YOUR PATIENCE AS WE BUILD THE LIVERPOOL HEALTH AND ACADEMIC PRECINCT

Piling works have commenced on the car park site

Works underway on new car park

Construction is now underway on a new \$50 million multi-storey car park – a significant component in the delivery of the Liverpool Health and Academic Precinct.

The seven-storey car park will improve accessibility to health services for patients and families and help meet the projected growth as a result of the redevelopment project.

On completion of the car park in early 2022, an additional 500 parking spaces will be available across the hospital campus.

The car park will also include rooftop solar panels in an innovative and practical approach to improving the hospital's environmental sustainability by harnessing the power of the sun.

FUN FACTS ABOUT OUR NEW CAR PARK

MORE THAN 10,000 cubic metres of concrete will be used

OVER 450 tonne of steel will reinforce the structure

It's competition time!

Calling all primary school children across the Liverpool Local Government Area (LGA) – we need your help to name the 40-metre tower crane that will soon be on site to help build our new multi-storey car park at Liverpool Hospital!

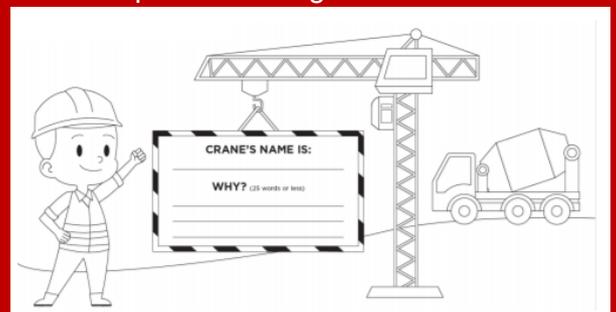

All you need to do is grab an entry form, colour in the image, come up with a name and tell us why you think that name would be great for our crane.

The competition is open to local primary school students and children being treated in our hospital during the competition period.

Great prizes are up for grabs for first, second and third place, including an iPad plus \$100 and \$50 gift cards, generously supplied by the project builder ADCO Constructions. The winning name will also be displayed on a banner and hoisted daily from the tower crane!

ENTRIES CLOSE FRIDAY 26 MARCH!

Entry forms and competition details are available on our project website at www.lhap.health.nsw.gov.au/namethecrane

Arts and health opportunity

We'll soon be seeking a Creative Producer to lead a multidisciplinary arts strategy for the redevelopment project, from planning through to commissioning.

With a key focus of improving patient experience, you'll be engaging with our Aboriginal and culturally and linguistically diverse (CALD) communities to create a safe and welcoming hospital environment through art and culture.

If you or someone you know is interested in this unique opportunity, stay updated via Facebook or visit the project website at lhap.health.nsw.gov.au to learn more.
