

FIRST VISITORS IN THE NEW INTEGRATED SERVICES BUILDING (ISB)

MOVE

On Monday 28 October, we were delighted to welcome our patients and the community through the new ISB doors.

Aiyaz and Rabiah were among our first visitors who were “shocked and amazed” at the transformation of the hospital!

The new building has transformed their experience, bringing some comfort and calm while they wait for their son, who is recovering inside.

WEEK TWO DOWN

Our new hospital building is now open and our beautiful new drop-off driveway and landscaped areas have been enjoyed by staff and the community.

The Demand Management Unit team or “the beating heart of the hospital” have moved into their new space!

The Central Ward Orderlies Service team were soon to join and set up shop within the department on ground floor next to the after hours access.

Both teams have settled into their brand new spaces!

FIRST PATIENT

Our first patient was recently treated in the new ISB Radiation Oncology MRI department!

The wonderful CWOS Team were at hand to assist with the transfer into the new building. Well done teams!

WHAT DEPARTMENTS ARE MOVING?

Week of 4 November

Department relocations this week include...

- NSW Health Pathology moves, see below.
- Neonatal Intensive Care Unit (NICU) Administration

Transfusion, Bone Marrow Transplant, Haematology, Specimen Reception, Anatomical Pathology

From 8am on Monday 4 November, the above departments will move to Level 3 of the new building.

For more information contact [Peter Williams](#) regarding the moves.

NICU Administration

From 7.30am on Thursday 7 November, the NICU Administration team will relocate to their space on Level 2 of the ISB using Lift P.

To see the full list of moves for all our stage 1 departments, visit our [‘Countdown to Opening’](#) page.

WEEK THREE MOVES
